

Shawn Merwin Dsouza

Senior Scrum Master & Agile Coach

9036449927 | shawnMdsouza@outlook.com | linkedin.com/in/shawn-merwin-dsouza-aa6811118
CSM | PSM I | SAFe | Digital PM

PROFESSIONAL SUMMARY

Agile Coach and AI Enablement Practitioner with 9 years of experience pioneering AI-assisted delivery, coaching cross-cultural teams, and driving enterprise Agile transformations across SAFe and Scrum teams. Built AI agents, designed and ran organisation-wide workshops, and delivered measurable outcomes. Grounded in software engineering, passionate about the future of human-AI collaboration in agile delivery.

KEY ACHIEVEMENTS

60% reduction in cycle time	Kanban-to-Scrum transition & structured release cycles (EGDK)
30% velocity increase	Sustained ~90% sprint delivery across 9 sprints for cross-cultural team (EGDK)
9.4/10 workshop rating	NGA onboarding workshop (EGDK)
3,700 DKK saved per person	Jira dashboards & JQL Generator replicating ~90% of Power BI metrics (EGDK)
10 min dashboard setup	DIY guide adopted by every Team Manager (EGDK)
2h/day time saved	Automated attendance filling (SLK)
AMPLIFY workshop series	Onboarded teams to use Claude AI for delivery (EGDK)
Scrum mate Dave AI Agent	MS Copilot Studio agent trained on EG's way of working (EGDK)

WORK EXPERIENCE

Senior Scrum Master / Agile Coach

EGDK | Oct 2024 – Present

- Led Agile delivery across multiple business units, coaching Scrum teams and driving organisation-wide Agile maturity.
- Established Scrum processes for new teams including ceremonies, workflows, and Jira dashboards to enhance visibility and tracking.
- Facilitated Lego-based Scrum onboarding workshops for new joiners, accelerating their adoption of Agile practices.
- Served as Scrum Master for pilot AI teams working on key initiatives including Chatbots for Confluence, ServiceNow and Docs from Code.
- Implemented Miro automation that significantly reduced the Product Owner's time spent creating user stories.
- Addressed delivery bottlenecks by identifying root causes including frequent PO turnover, overcommitment, weak refinement, and ineffective retrospectives — increasing delivery consistency from 40–50% to 80–90% and team velocity by 30%.
- Developed a dynamic JQL query generation tool using Claude AI, reducing query setup to a single click — adopted by Team Managers across EG.
- Influenced hiring of a dedicated Scrum Master and Product Owner by highlighting structural issues to senior leadership, improving long-term team stability.
- Onboarded new acquisitions to EG's standard of working, supporting teams through hypercare transition and mentoring Product Owners while establishing the Scrum Master role.
- Conducted Scrum maturity assessments before and after the hypercare period; delivered structured improvement reports to Head of Department — improving maturity scores by 50–60%.
- Partnered with DevOps and facilitated AMPLIFY Agentic AI workshop series, onboarding teams across EG to use Claude AI and Claude Code for SDLC.
- Created AI Glossary Handbook, Vision Board, and Goals Tracking Board — improving AI literacy and strategic alignment with the NGA team.

Project Leader (Scrum Master — SAFe)

SLK Software | Nov 2021 – Sep 2024

- Planned and facilitated PI Planning — working with Product Owners, Scrum Masters across the ART, stakeholders, and RTE to effectively plan program increments.
- Facilitated all Scrum events including sprint planning, daily stand-ups, sprint reviews, and retrospectives — ensuring effectiveness and adherence to time-boxed schedules.
- Interfaced with Scrum Masters and Project Managers of other teams to manage dependencies and prepare joint plans.
- Facilitated team progress toward sprint goals by proactively identifying and eliminating impediments.
- Facilitated team discussions in developing product roadmaps and OKRs aligned with product development goals.
- Interacted with all Scrum teams in the ART to determine release requirements, manage risks, and resolve conflicts and dependencies.
- Created and managed SOW and HRAR for the project; projected quarterly revenue to senior management.
- Automated attendance filling, saving 2 hours of Scrum Master time daily.
- Improved code and design review processes, scaling team productivity by 10%.
- Successfully led the team to achieve a Customer Satisfaction Score (CST) of 4.5.
- Created SharePoint portal that significantly reduced project managers' effort.

Software Engineer

Cerner Healthcare | Nov 2018 – Sep 2021 | Bangalore

- Developed and maintained healthcare software for outpatient workflows — including Medication Manager, Dispense Monitor, Claims Monitor, and related product tools.
- Analysed user requirements and developed efficient, maintainable code in C#, .NET, WinForms, WPF, and Win Services.
- Built a Refill Reminder Windows application — a Windows Service that fetches patient data from the database, enabling pharmacists to schedule medication refill reminder emails to patients.
- Reviewed code for bugs and vulnerabilities using approved troubleshooting methods; documented and maintained software functionality.
- Mentored junior engineers and collaborated cross-functionally on product delivery and stability.

Associate Software Engineer

Robert Bosch (RBEI) | Sep 2017 – Nov 2018 | Bangalore

- Worked on ILM Migration — a tool to migrate data from SAP portal rooms to SharePoint 2013 sites.
- Designed technology solutions meeting performance expectations; delivered deployment packages and client demos.
- Technologies: C#, .NET, Windows Services, SharePoint 2013.

Intern

Robert Bosch (RBEI) | Jan 2017 – Jun 2017 | Bangalore

- Gained hands-on exposure to enterprise software development; worked on SharePoint and AngularJS code snippets.

SKILLS & TOOLS

Agile Frameworks	Scrum, Kanban, SAFe, Lean-Agile
AI & Automation	MS Copilot Studio, Claude AI, JQL automation, Jira Automation
PM Tools	Jira, Confluence, Power BI, Rally, Digital.ai, Version One, SharePoint
Technical	Python, C#, SQL, Git, Power BI, WinForms
Coaching	Team coaching, SM mentoring, maturity assessments, facilitation, stakeholder mgmt

EDUCATION

MSc Software Technology	AIMIT St. Aloysius 82%
